

The Dome

William Treurniet, February, 2022

During a series of séances held in 2013 at the Wallacia Development Centre near Sydney, Australia, an attendee said to the author that she had felt an anomalous sensation in the open air on the path to a séance room from the main house. He retraced her steps and felt a definite, brief sensation on the skin as he walked along. The air was still and it felt like walking into a ridge of higher density air.

Figure 1 identifies the buildings on the site. The main house is shown at the upper left of the image. Just below it is a building complex consisting of two séance rooms and a guest house. The location of the felt resistance was in front of Séance room #1 in the image. The medium, Paul Hamden, has a connection with the extraterrestrial Zeta race, and explained what had occurred. The sensation was due to an invisible energy dome placed over the séance rooms by Zeta beings who were monitoring the event. The dome protected them from natural and artificially generated electromagnetic noise.

A similar phenomenon occurred at a comparable event held in 2014 at the same venue. This time, the author and a companion happened to feel the alleged dome while slowly walking near

the main house. Both individuals suddenly felt unusually dizzy and slightly nauseous until they moved away from that location. According to the medium, Paul Hamden, the dome had not yet been properly calibrated. It was intended to protect the dematerialized Zeta bodies from the electromagnetic noise in our environment, facilitating freedom of movement between their craft and the séance venue. A Zeta said at the first opportunity, *“For us to come, we reinstate a spherical protective mechanism,”* and confirmed that it was in reference to the dome.

The author discovered that resistance due to the energy could be detected by the body as he paced back and forth across the edge of the alleged dome. The felt resistance varied according to the symmetric shape of a bell curve, and the thickness of the dome wall was judged to be about 1-2 meters. A Zeta later confirmed, *“You were being influenced by the shield that was being created. ... The closer you came to it, the more your etheric body reacted to the shield, and the further you moved away from this device, the less you felt.”* The measurements were consistent with the medium’s explanation that the Zetas had placed a protective dome over the venue and the surrounding area..

FIGURE 2. THE MEASURED EDGE OF THE DOME (IN RED) AND THE EXTRAPOLATED COMPLETE BOUNDARY (IN WHITE).

Further, the sensation of resistance could be used to measure the extent of the alleged dome. It was found to extend at least 50 meters along one side of the event venue and was curved along its measured length. The red line in Figure 2 showed the felt resistance measured with the body

as detector. Extrapolation of the curve by the white line in the figure suggests that the dome was indeed circular and about 100 meters in diameter. Only the part of the circle shown in red was directly measured since the terrain outside the property was physically hard to access or extended into someone else's property. According to the medium, the dome protected the dematerialized Zeta bodies from the electromagnetic noise in our environment, facilitating their freedom of movement between a craft and the séance venue.

During a sitting soon after the detection of the dome, the Zeta said, *“And now, interestingly, you were able to sense the energy and were able to walk away from the dome, ... that you were able to sense the energy of that, the increase in the size. You were being influenced by the shield that was being created near the sitting. And now, of course, the closer you came to it, the more your etheric body reacted to the shield, and the further you moved away from this device, the less you felt.”*

The Zeta confirmed that the human etheric body is sensitive to the modulated energy of the dome. The measurements taken were consistent with the presence of the energetic dome structure as explained by the medium. The existence of the dome as measured can be taken as evidence that the Zeta presence was independent of the medium.
